

RECITAL PROCEDURES AND FAQ

We're so pleased that you will be participating in our winter recital! Recitals are the time for you as a student to show off what you have learned in your music lessons to your friends, family, and peers.

What do I do when I arrive?

Proceed inside and follow the signs to the stage area. Students will have assigned seating; parents and family will sit in a separate area.

What should I wear?

There is no strict dress code for students. We encourage students to dress in a professional and comfortable manner for their performances. Refrain from wearing any torn or dirty clothing.

Where do I sit?

Students will have assigned seating on one side of the room. Students must proceed to their assigned seat when they arrive (staff will be available to direct them), parents and family will have a different designated area to sit in.

Where do I put all my stuff?

There will be a designated area near the stage for larger equipment. Smaller equipment such as cases, ukuleles, books, etc. should be kept with students at their seat. Teachers will be available for tuning and for help with unpacking and setup.

I've never performed before. How does it work?

When it is your turn to perform, a staff member will announce your name and your song on the microphone. Then you will come on stage and a staff member will ensure you are setup correctly depending on your instrument. If your teacher is playing with you, they will be onstage too. Then you play your song, and when you're done, take a bow while facing the audience. Then return to your assigned seat.

When do I play? Do I get a trophy?

Please refer to our recital program to see what time segment you're assigned to. Every student will receive a trophy at the end of their time segment. We will also hand out certificates after each performance and we will take a group picture at the end of each time segment.
